

Beer Tasting Experience

Enjoy a virtual beer tasting experience with a craft beer expert

Inconnection Beer Tasting Experiences are designed to bring you closer to those important to your business in a safe and engaging way. They're available as virtual, hybrid or socially distanced events so you can make the most of any situation.

Working with a craft beer specialist who will be the host of your event, we select a range of beers with various flavours and production methods that we know will spark fantastic conversation on the day of the event.

They are packaged up and sent directly to your attendees, along with a beer glass for sampling, so they have everything they need to enjoy the full experience.

Our ready made events are available for a fixed price per head – with the option to customise your format to meet your business goals for any number of guests.

All of our virtual events can be upgraded with MemMail
