

Christmas Wine and Cheese Tasting

Event Overview

After years of intensive research (drinking wine and eating cheese!) our expert will lead you through a cracking artisan cheese board paired with some excellent wines perfect to get your guests in the festive feeling. The experience is fully interactive, with the opportunity for guests to ask questions and chat with one another.

When designing your event, we can help you decide on wine and cheese selections that will resonate with your guests and we can also tweak the format to include any special requests.

What's included

A MemMail pack including:

- Your selected wines and cheeses
- Personalised handwritten note
- A branded set of instructions
