

# Snowshoeing

By Inconnection Adventures

## Event Overview

Snowshoeing is a fantastic way to explore a snow-capped mountain without the skills required to ski. This activity can be catered to your teams' skills and your goals. Reward your employees with a beautiful hike or test their resolve against some of the toughest trails available.

This activity can be run from a variety of different locations to suit your needs and the level of challenge you want to set for your team. Hiking through the alps or try catching a glimpse of the Northern Lights with a trail through Finland are just a couple options for our snow showing adventure.

## Event Scale

This event can be catered from just a small group to having a hundred person hike up the mountainside at once. The challenge of the activity will depend on the trail chosen, which allows us to cater the activity to any ability level during the planning stage.

## MemMail

Our MemMail service is an optional extra to build anticipation and excitement for your expedition. There are many options to include from branded water bottles to pieces of kit, but there is no limit to what could be included within the personalised MemMail package.

They will be branded to your company colours and sealed with a branded logo sticker. After you've completed your snow shoeing adventure, you can have a follow-up MemMail package sent to your guests with a picture of your team, either framed, on a keychain, or any other possibilities.

## Our Experts

Our expert, Jason Rawles, has been leading groups on arctic adventures for years. Jason has an extensive network to ensure your guests will be in the best hands.

So, you can relax knowing the event will be run by qualified guides and instructors, plus all the insurances and liabilities will be in place for your expedition.
