

Husky Sledding

By Inconnection Adventures

Event Overview

Husky sledding is a rich cultural tradition dating back thousands of years. It can be enjoyed in most areas with snow, from the alps all the way up to the arctic circle, where you can even catch the Northern Lights if you're lucky.

This exhilarating activity can have you racing at up to 20 mph through the snowy landscape. Many experiences also include quality time with the dogs to let them get to know their rider before the experience. This is a great option for rewarding employees with this exciting activity which they will never forget.

INCONNECTION ADVENTURES

Event Scale

This event is ideal for smaller groups to give that intimate experience. However, it can be designed for larger groups as well. Guidance will be given before hand by an expert musher to ensure your guests are ready to get behind the reins.

MemMail

Our MemMail service is an optional extra to build anticipation and excitement for your expedition. There are many options to include from branded water bottles to pieces of kit, but there is no limit to what could be included within the personalised MemMail package.

They will be branded to your company colours and sealed with a branded logo sticker. After you've completed your husky sledding adventure, you can have a follow-up MemMail package sent to your guests with a picture of you and your dogs, either framed, on a keychain, or any other possibilities.

Our Experts

Our expert, Jason Rawles, has been leading groups on arctic adventures for years. Jason has an extensive network to ensure your guests will be in the best hands.

So, you can relax knowing the event will be run by qualified guides and instructors, plus all the insurances and liabilities will be in place for your expedition.
